

THE LEXINGTON CAUCASIAN AND EXPRESS—MAY 11, 1867.

Caucasian and Express.

By JULIAN ALLEN & CO.

TO THE DEMOCRATS.

We are sorry to learn that the Southern Democrats have resolved to meet at Louisville, Ky., on the 20th of May. We trust the 15th of June will be chosen instead of the 20th, as the most logical, and most convenient date for the meeting. We hope that the meeting will be a success, and that it will be followed by a general and peaceful meeting of our State conventions.

M. S. MORSE.

Member of Congress from Long Island, New York.

JOHN C. SPADE.

Member of Congress from Boston, Mass.

W. A. LEWIS.

Member of Congress from Boston, Mass.

W. H. BATES.

REED CONGRESSIONAL.

Member of Congress from Boston, Mass.

REGISTRATION.

The registration of voters, on which Congress has so long waited, is now beginning to do with the census. That section provides for a "special" election only—occurring between state elections. This is a political election, and a great deal of care and expense has been taken in such registration. Still, Mr. Blair has authority to register the voters, which he has not done. He has, however, registered himself to the requirements of the law, exemplifying as to age, residence, &c., &c.

MEMPHIS.—The office of the Memphis Daily Express has been removed to the drug store of T. J. Fletcher.

An earthquake occurred at Omaha, Nebraska, on the 4th, preceded by lightning, thunder and rain.

The dramatic association of St. Joseph, contributed a benefit, amounting to \$100, toward southern relief.

The St. Joseph Vindicator has been shown an egg of ordinary size, containing within a second egg, about the size of a hickory nut.

The St. Joseph Vindicator calls Fred Douglas a gentleman of distinction. We guess there is no discount on the stock.

Mr. BERRY, late of the Richmond Freemasons, about commanding the publication of a conservative paper at Wyandotte, in Kansas.

The State Times thinks a locomotive very civilizing to a rebel. We think the pententiary would assist materially in civilizing such chaps as edit the Times.

Several woolen and cotton factories are being erected in North Carolina and goods of the very finest wares will be manufactured much cheaper than can be secured in the Eastern markets.

John Minor Botts and five other editors are on the United States grand jury at Richmond. Such a small Botts had enough, in all conscience; but Botts and Sambo mixed, make a compound of villainous scoundrels unequalled in ingloriousness.

The Springfield, Mass., Republican, the most decent radical paper that we know of, speaking of the murder of Wm. dieckes, "was one of those military trials that constitute the darkest page in our recent political history, which we could be glad to blot out forever from human remembrance." What about Mrs. Suratt?

It appears by the Produce Market Review that a complete revolution has taken place in the distribution of the Japanese tea crop, for whereas a few years ago the greater part went to England and China, a little more than one-third went to the United States, the latter now monopolizing nearly the whole supply.

The St. Joseph Union, radical, says respect for the dead is the exponent of civilization. How will this set with the dead as kindly as they do the living? Disrespect of the dead is the exponent of barbarism, and radicalism is barbarism revamped. Where are those fellows who are afraid of the dead—thought then, St. J. Johnson might rise against them?

The change from the ten to the eight hours labor system is creating great disturbances in many of the cities of the Union, and may so continue for some time. Large numbers of employees are on a strike, and have been for several days. It is intimated that the actual cost to operatives in Chicago, for the past few days, they had been on strike, had cost them \$100,000. The system may be a good one if fully implemented, but it seems to be seen.

The earthquake was more severe at Oregon, Holt county, Mo., than at any other place we have heard from. Several persons applied for goods from the Great Gulf, and were turned away. The Great Gulf was in session at the time, but witnesses, jurymen, lawyers, and everybody became demoralized and a stampede was the consequence. Some fell down stairs, while others were unable to get down at all. One man jumped out of a second story window, but came off unharmed.

The only practical effect of the Fenian movement in Ireland has been to accelerate the disintegration of that country. They give very discouraging accounts of the state of the Fenians, and say that the movement in Ireland is entirely at an end. It is said Col. Roberts has made a special call on the Fenian British, a call for aid to the families of Irish prisoners.

The stories about the grasshoppers begin around as blithely as the locusts themselves. Some of the papers assure us they are coming in congealing numbers; others say there is no danger to apprehend from them, while marvelous stories are told of the number of insects that have been hatched from a square inch of dirt. A genteman of Cassopolis tells us that the most of these peccadilloes little mischief makers were destroyed by the freeze of the 10th of March; and right upon the heels of this came the grasshoppers, and the stories of them are daily multiplied to a point, and rapidly disappear. So here goes the grasshopper story. We hope, if the freeze-up story is incorrect, that the migratory year may prove true.

Why are good husbands like dough? Because a woman needs them.

Gubernatorial.

It is pleasing to notice that the editor of our and *Parkers* is growing worse and worse every day, even with his own party. No paper in the state pretends now to defend his villainies in his radical speeches, and his transactions in this county, except the Missouri Democrat, so called, and that paper gives him only a weekly vindication, on account of "There is Fussiness, but not much to it." The little paper, and the newspaper, are, however, like the *State Times*, "content in favor of showing up the seals and insincerity of these transactions in all their deformities and iniquity. The Attorney General, radical and unscrupulous as he is, has not been able to deduce the responsibility of the railroad swindlers—he has not been able to discover how it is that \$85,000 was letter to the State of Missouri than \$1,000,000—and has instituted proceedings against McKay & Co. from conveying the roads or using their franchises. Enough has been shown by a very partial and superficial examination into the frauds to politically kill his excellency; and by the slender suits against the Republicans and Dispatch, initiated by Tom Cawthron preparatory to his character, it is now more than will be proven, though he has not been able to show that Blair, when campaigning in South Carolina did not become so appre- ciated a citizen, ware and China to his own detriment, as to merit one more distinguished appointment.

Frank Blair, in his Missouri speech, having publicly charged that the members of the Missouri delegation now in Congress, who served at the inauguration, were set of horse thieves, has soon will be published to show that Blair, when campaigning in South Carolina did not become so appre- ciated a citizen, ware and China to his own detriment, and injury.
